Dear Brothers,

As members of Kappa Alpha Order, we strive for excellence in every endeavor, and the pursuit of academic excellence is paramount to our success, both individually and as a chapter within our Order. It is our hope that you will utilize the resources that are provided to you, as Brothers, to enhance your academic performance, both individually and within your respective chapter.

No one plan will work for everyone or every chapter. However, I encourage you to utilize a combination of ideas, suggestions, and resources to personalize a comprehensive scholarship approach that best suits the needs of your chapter and for you personally. You'll find that when your chapter makes academic excellence a priority, the other components of chapter operations will improve. It has been proven that there is, indeed, a direct correlation between academic achievement and the strength of a chapter.

I encourage you to take advantage of the many scholastic resources you will find on this website. They are designed to aid and assist your chapter, and you personally, achieve academic excellence. Additionally, please utilize the numerous volunteers, both within the Order and on your respective campus, who are there to assist. Whether it's your advisory board, university personnel, province commanders, deputy province commanders for academic affairs, or even me, we are all here to assist you or your chapter in reaching your full potential.

Fraternally,

Gregory R. Singleton
