PREVENTION EDUCATION ADVISORY | HURRICANE RESOURCE

BEFORE THE STORM

• Review/update business continuity/disaster recovery plan.
• Review procedures with emergency organization or emergency response team to ensure all positions are filled and all members are properly trained.
• Check general condition of the building, specifically the roof covering, roof flashing and roof drains. Make all necessary repairs.
• Order emergency supplies such as plywood for windows, mops, brooms, tarpaulins for key equipment, sandbags, etc.
• Identify key equipment, stock and supplies, and vital records that will need to be relocated or moved.
• Have materials available to secure outside and/or roof-mounted equipment such as cranes, signs, trailers and HVAC equipment.
• Monitor commercial TV, radio and/or internet websites to keep abreast of weather conditions and issuance of watches and/or warnings.
• Test all generators, emergency lighting, UPS equipment and sump pumps to ensure proper operation.

IMPENDING STORM

• Implement business continuity/disaster recovery plan.
• Shut down operations in an orderly manner and in accordance with emergency shutdown procedures.
• Check all fire protection equipment such as sprinkler control valves and fire pumps.
• Fuel all fire pumps, generators, company vehicles, power equipment such as saws, etc.
• Install hurricane shutters or plywood over windows and doors.
• Cover computers, machinery and stock and supplies with tarpaulins.
• If possible, raise any equipment, finished goods or items off the floor.
• Secure outside and/or roof-mounted equipment such as cranes, signs, trailers and HVAC equipment.
• If necessary, turn off utilities to reduce the probability of a fire/explosion.
• Conduct final inspection of building and make emergency repairs.
AFTER THE STORM

- Secure the facility.
- Survey for damage – take pictures of any damage to both the building(s) and its contents.
- Avoid loose or dangling power lines and report them to utility company, police or fire department.
- Before utilities are returned to service, check for gas leaks, look for electrical system damage, and check for sewage and water line damage.
- Begin salvage operations as soon as possible; ServiceMaster contact can be found below.
- Clean debris from roofs and property if safe to do so.
- Use telephone only for emergency calls.
- Contact MK Mashek, Claims Service Specialist to report any damage at 402.898.5500 or mmashek@holmesmurphy.com.
- Stay tuned to local radio for information.
- Critique pre- and post-storm actions to identify strengths and weaknesses and make necessary modifications to prepare for the next emergency.
